## REMINDER APP FOR MENSTRUATION AND PILLS INTAKE

it is an app to remind their users of their monthly menstrual period and also for people intaking pills ,so that they can be reminded of their exact time to take medicine

Why is it  
needed?

## FOR WOMEN

women can use this app as it is useful for them. working women need not keep worrying about their periods anymore

## HOSPITALS AND NURSES

Nurses have different works to do, and it would be helpful if they are reminded to give medicines for their patients on time.

## FOR ELDERLY

elderly people need not remember their timeline and pill intake. so why not an app to remind them to do so?

## FOR KIDS

kids may not even know when to take their medicines, it would be helpful to use the app as the parents need not worry about giving them medicines

What Makes  
Us Unique

## TWO IN ONE

this is one place for pills reminder and as well as menstruation tracker

## NICE UI

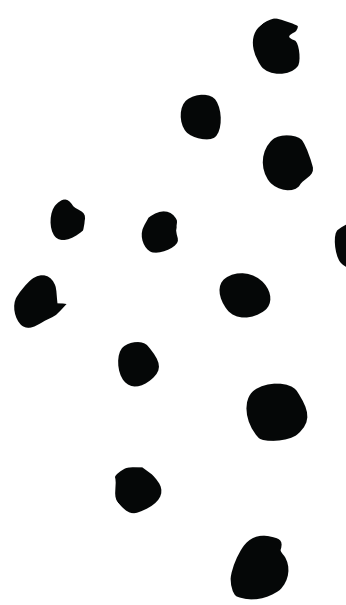

attractive and unique user interface which attracts clients to keep using the app

## STRONG CLIENT COORDINATION

No problem in our part to discourage the users

## SECURITY OF THE DATA

data provided by the users are secure and will not be used for any reason

tech stack used

# flutter

flutter is used with dart to built the app.

The background is an abstract composition of organic, torn-paper-like shapes. A large white shape occupies the center, surrounded by various shades of pink. In the bottom-left corner, there is a cluster of black dots of varying sizes. In the top-right corner, there are thick, black, hand-drawn scribbles.
